Words going around and around
Like in a washing machine,
Only there in my head,
I pluck one out and put it aside,
There is more going around again,
Through the dark tunnel the words continue to spread
The poem is almost done.

Reading it out aloud stuttering as I go,
I'm pleased with what I have done,
Writing words I don't stutter
As my oral words have done
I'm glad I wrote this poem,
I can write what I can't say,
And be understood in every way,
I've been given a voice.

1. COMPREHENSION ON UNSEEN TEXT:

(20 MARKS)

There is statement that William Ellery Channing, a renowned theologian, made that sums up everything that books mean to those who love them. 'It is chiefly through books that we enjoy intercourse with superior minds.' He went on to say that great people talk to us and give us their most precious thoughts through books.

What William Ellery meant was that books are the greatest source of knowledge. If we have to prosper, then we have to develop the urge, the thirst and the desire to read. People have really not understood the fact that the only way of shedding off ignorance, and making an informed and meaningful contribution to society is through acquisition of knowledge through reading.

It is sad to note that young people do not look up to widely read and knowledgeable people as their role models. They do not appreciate someone who has made accomplishments in the intellectual arena in the same spirit that they fall behind a sports personality or entertainment celebrity. Many young people imitate sports people and entertainers lavishly and look up to them as their only heroes and heroines.

The media is partially to blame for this **trend**. It has not always acted responsibly in the way it has featured personalities. In most cases, the media only features, as celebrities, people who excel in sports and entertainment. This ignores the fact that celebrities are found in all fields of life. Some of the personalities the media features, such as musicians and artists of dubious moral standing, alienate the youth from the grim realities of their society. Blinded by the glamour of the lives that the celebrities live, the youth lose interest in intellectual development.

Very few students in secondary school or even in universities are aware that reading can open up limitless possibilities to them. Some of those who have completed school or college education wrongly assume that the reading of books ends with the last examination one takes. Sooner or later such people become illiterate in thought. They stop being originators of ideas and turn into mere consumers of ideas because they are not close to the fountain of intellectual nourishment. What is the difference between them and those who have been unable to have access to education?

There must be sharing of ideas for development to take place. When people share ideas, they develop mentally as well as in other facets of life. There are very few reading clubs, meetings where members get together to exchange meaningful ideas acquired through reading. In their free time, people gather in social set-ups where nothing serious transpires. In bars, for example, there is no intellectual discourse that goes on.

Obnoxious and unimaginative exchange of obscene words can hardly measure up to anything constructive. The lack of interest in debates of national importance can be attributed to the bankruptcy of ideas as a result of the lack of a reading culture.

The truth of the matter is that books are capable of doing many things for us. Very few young people know that they can turn their grades from E's, D's and C's to B's and A's by simply reading books. If only they improve their ability to read, they will be able to open any door they choose to go through. Reading also instills in young people the skill of self-confidence that they need in the competitive world they are living in.

Reading activates and exercises the mind. It forces the mind to discriminate between good and evil, and pushes us to use our imagination, thus making us more creative. In a sense, reading actually does activate our minds in the same way we activate muscles when we lift weights. The more active our minds are, the more agile they become, which results in a higher level of creativity. Someone wisely pointed out that the mind, once stretched by a new idea, never returns to its original **dimensions**.

Development psychologists estimate that less than five per cent of us are still creative by the age of 18. By this age, many young people will have 'wasted' themselves watching television shows and films where images and sounds are already packaged and ready for them at the click of a button. They use little imagination because everything is done for them. They do not critically think about how to dress, think or behave. Consequently, they do not develop the habit of thinking for themselves.

2. BLOSSOMS OF THE SAVANNAH BY H.R. OLE KULET

Read the excerpt below and answer the questions that follow.

They were walking back from the homestead talking animatedly when they were accosted by a tall heavysset young man with a thick dark beard and moustache. He wore a pair of faded jeans and a dirty blue shirt. On his face was a wide imprudent grin. Taiyo glanced at the young man and looked away. She moved closer to Resian and nudged her to change direction. But the man walked directly to Taiyo. On seeing the man approaching, a heavy knobkerrie in his hand, Resian almost fainted.

“Please, do not harm us,” she pleaded. “We do not have any money with us.”

“Who told you I want any money?” the man jeered as he strode **menacingly** towards them.” Are you the *intoiyenemengalana* from Nakuru town?” he asked laughing contemptuously. I want to have a good look at you and know what kind of stuff you are made off!” He roughly grabbed Taiyo’s arm. “Leave my sister alone!” Resian hissed indignantly lifting her eyes and glaring into his. “Let go her arm at once!”

“Let go of my hand,” Taiyo demanded, trembling with anger. “We are not the kind of women you have in mind!”

“What women!” the man retorted acidly. “Soon, you will be able to differentiate decent women from *intoiyenemengalana*.

Taiyo tried to wrestle her arm from the man’s grip without success. But suddenly, he seemed to change his mind. With a sour smile, he spat and glared at the girls. Then releasing Taiyo’s hand, he told them: “You have not seen the last of me. Soon you will come to know that there is no place in our society for women of your **ilk**.” He turned and disappeared down the road as suddenly as he had appeared.

The two girls sighed heavily and shook their heads as they watched him walk away. Although they had put up brave faces, they were terribly shaken. “Thank God his intention was not to rape us,” Resian said tears streaming down her face. We would have been helpless in the hands of such a brute.”

Taiyo bit her lower lip struggling to maintain control. “His intention could have been worse than rape.”she said, tears of anger and indignation welling up in her eyes. “We would have been helpless in the hands of such a brute.

3. POETRY: (20 MARKS)

Read the following poem and then answer the questions that follow.

In the city

All moving the lord knows where,

Dressed in suits and tatters,
Bowties, tights, ochred sheets and earrings,
All thinking of things to come,
Africa is in a state of opportunity,
All look for easy chances.

Of self- upliftment or underserved promotion
That often mirage further and further
Making frustrate
Minds that should be content.

It is a time of opportunity –

When one line makes a poet
And a little acquaintance or chance
Rockets one the highest office.

But the peasant, the pillar of the nation,
Has only to cope with prices that shift
Like the waves that rock the ship
Carrying yellow maize to the city.

The employed call out strikes
That only deplete the little funds
That may relieve the peasant.

The elder brother keeps the younger in hunger
At home, if there's any,
The child plays with an empty bottle,
Cries for more milk
When the cost is daily on the rise.

While the incomes remain static
And the higher brackets are daily filled
By youths that will not retire

Within this century.

The child laughs gaily,
Displaying its only four teeth
That shows it grows to eat,
Unaware of all that shapes her decade

Ikolojia ni elimu ya kisayansi inayohusu uhusiano wa kimazingira kati ya vitu vyenye uhai (mimea na wanyama) na visivyokuwa na uhai (hali ya hewa na udongo.) Sayansi ya ikolojia ipo katika mfumo wa elimu ya mazingira. Mfumo huu umegawanyika katika sehemu mbili: mfumo wa mazingira ya nchi na mfumo wa mazingira ya majini (bahari, maziwa, mito na madimbwi)

Viumbe wamejirekebisha kulingana na mazingira yao. Kwa mfano, samaki wana matamvua yenye uwezo na kusharabu hewa ndani ya maji. Ng'ombe wana mapafu ya kuvuta hewa katika nchi kavu. Sehemu za mvua ya kawaida zina mimea yenye majani makubwa ili iweze kuhifadhi maji nyakati za shida. Mimea ,wanyama,udongo na viathiri vingine vya hali ya hewa vinahusiana sana kimazingira. Mimea huota kutegemea hali ya nchi, umbo au sura ya ardhi na aina ya udongo.

Hali ya nchi ni wastani wa hali ya jotoridi, wastani wa mvua, unyevunyevu hewani, upepo, msukumo na mwanga kwa muda wa miaka thelathini. Dunia imegawanyika katika kanda mbalimbali. Kila kanda ina mimea na wanyama wa aina yake kutegemea hali ya nchi. Ukanda wa istiwai una joto, mvua na unyevunyevu mwingi. Miti ya ukanda huu hufanya misitu minene, yenye miti mirefu. Miti hii ni mirefu kwa sababu ya msongamano unaofanya miti igombanie mwanga wa jua kwa kurefuka. Katika misitu hii, ipo mimea ya kangaga inayotambaa na kukwea miti mingine. Katika ukanda wa Savanna hali ya joto na mvua si kubwa kama katika ukanda wa istiwai. Kwa sababu hii, sehemu nyingi ni vichaka na nyika zenye uwezo wa kuota nyasi zisizohitaji mvua.

Upepo una faida na hasara katika mazingira. Upepo husaidia kusukuma mawingu yaletayo mvua. Upepo unapozidi hudhuru mimea na wanyama kwa sababu hukausha maji ardhini, huvunja na kuharibu mimea, huleta vifo kwa wanyama na pengine kuharibu mazingira ya watu. Mimea katika mazingira hutegemea sana nuru ya jua ili kutengeneza chakula chake. Kiasi cha mwanga upatikanao mahali fulani huathiri mimea na wanyama wapatikanao katika mazingira yale.

2. UFUPISHO

Dhuluma kwa wanawake sio matokeo ya siasa baada ya uhuru, bali ni matokeo ya hali iliyokuwepo tangu enzi za mababu zetu; kabla ya ukoloni. Kubaguliwa na kudhulumiwa kwa wanawake kisiasa kunaona na kunonywa kwake kijamii kunakoshuhudiwa siku nenda miaka rudi.

Elimu ya jadi ilimwandaa mwanamke kuwa chombo kitiifu cha mwanamume. Mwanamke aliandaliwa katika unyago na katika mfumo mzima wa malezi kuwa chombo cha kutumikia mwanamume-kumstarehesha, kumfariji, kumlisha na kumzalua watoto. Mwanamke tangu jadi hakuruhusiwa kushiriki katika shughuli za kisiasa na utawala wala hakuna mtu aliyeamini kwamba mwanamke angeweza kushikilia wadhifa wowote wa uongozi.

Demokrasia ya jadi naihusudu sana; ambapo wazee walikaa chini ya mbuyu na kuamua mambo ya jumuiya. Mahakama ya kijiji ilikuwa aghalabu ni ya wazee na ya wanaume pekee yao. Hakukuwa na

mwanamke aliyeshirikishwa, hata kama alikuwa ajaza. Sifa waliyokuwa nayo wanawake ni ile ya ushiri na uganga. Mwanamke yeyote aliyezeeka alidhaniwa kuwa bingwa wa uchawi, ulozi na ushirikina. Kwa hivyo, wanawake ndio waliokuwa washirikina wakubwa, maana fursa ya kupata elimu pana zaidi hawakuwa nayo. Si ajabu kuwa mwanamke alipojitokeza na kusema jambo la busara, alipuuzwa na pengine kutukanwa hadharani.

Kwa bahati nzuri, kumezuka mwamko uliotuingiza katika enzi mpya. Vita vya wanawake vya kujihami na kujiendeleza katika ulimwengu unaotawaliwa na wanaume vimetapakaa kote katika kila sehemu ya dunia. Wanawake wengi wamekiuka misingi na mizizi ya utamaduni na kung'oa asasi za kijamii na itikadi ambazo daima zimeendelea kumyanyasa na kumuumbua utu mwanamke tangu jadi. Watetezi wa haki za wanawake zamani walilaumu suala la serikali za mataifa mwaka hadi mwaka. Huku masuala ya wanawake ya kijamii, utu na utamaduni yakishangiliwa kupitishwa, watetezi wameeleza wasiwasi wao ikiwa kupitishwa kwa maazimio kutasaidia kuleta maendeleo ya haraka kwa wanawake kimataifa au katika nchi moja. Fauka ya hayo, baadhi ya wachunguzi wanaonelea kuwa maazimio mengi hayadokezi hatua za kufikiwa haki za wanawake.

Maazimio mengine yanazungumzia juu ya kuondolewa kwa ubaguzi dhidi ya wanawake, kushiriki kwao katika uendelezaji wa amani ya kimataifa na ushirikiano wa kimataifa, majukumu yao katika jamii, mfumo wa Umoja wa Mataifa wa wanawake na kuimarisha hadhi ya wanawake katika sekretariati ya Umoja wa Mataifa miongoni mwa shughuli nyingine katika mkabala huu.

Wanawake wameonyesha vipaji vyao katika nyanja mbalimbali za maisha; siasa, uchumi, utawala na kadhalika. Wanawake wamejikakamua na kudhihirisha kuwa wao pia wana jukumu muhimu la kutekeleza ili kuyaongoza maisha yao na ya watu wengi. Wadumishaji wa dhuluma za kijinsia hawana budi kusalimu amri na kukubali ukweli huu, wapende wasipende. Mtazamo juu ya haki sawa unatokana na kukubaliwa na kuondolewa kwa aina zote za ubaya dhidi ya wanawake wanaojitolea mhangana kutetea hadhi yao pamoja na ya wanyonge wengine. Wao huonekana kama waasi, wapinga mila na watovu wa utii.

Reading comprehension (15 marks)

PASSAGE 1

Se loger coûte cher. C’est pourquoi deux tendances apparaissent. Il y a les jeunes qui décident de rester chez leurs parents le plus longtemps possible. Un quart d’entre eux, environ 25%, habitent encore chez leurs parents entre 25 et 30 ans. En général, ce sont plutôt les garçons que les filles. Pourquoi ? Les filles disent qu’elles préfèrent être indépendantes. Elles n’ont pas besoin de dire à leurs parents ce qu’elles font et à quelle heure elles rentrent. Et il y a les jeunes qui décident de partir de la maison. Alors, comme les loyers sont chers, ils doivent trouver un logement à partager avec d’autres personnes, c’est la colocation.

PASSAGE 2

Ces temps — ci, il y a des crises à la maison. Des scènes terribles entre moi et mes parents toujours pour la même raison ils me posent des questions, me suspectent de cacher les pires choses et à ce moment-là, je me réfugie dans ma chambre.

J’allume la radio pour m’isoler, mais ils continuent de me questionner derrière la porte: “Si tu nous répondais, on pourrait discuter. Quand tu étais petit, tu nous parlais, maintenant on n’a même plus le droit d’entrer dans ta chambre”.

J’ai interdit l’accès de ma chambre et je trouve ça normal. Ma mère n’a pas le droit de regarder toutes mes affaires sous prétexte de ranger ou de faire le ménage. La dernière fois, elle a vu une photo de

Véronique (la fille que j'aime) et j'ai eu droit à un interrogatoire: "Eh bien, elle est mignonne. C'est ta petite amie? Depuis quand?

Qu'est-ce qu'elle fait, hem, dis- moi!"

En un sens, je comprends sa curiosité: je suis son fils et elle s'intéresse à moi. D'ailleurs, si elle m'ignorait, je n'aimerais pas non plus. Mais sa façon de se mêler de mes histoires m'énerve.

Je ne sais pas si tous les parents sont pareils, mais les miens sont paniques par l'adolescence. Ils devraient se calmer! Bon, c'est vrai que mes notes ont baissé depuis que je connais véronique mais sinon, tout va bien. Ils ont leurs secrets, moi aussi c'est pas plus compliqué que ça!

« Que personne ne bouge! » a commandé l'un d'eux pendant que l'autre, les yeux caches derrière des lunettes de soleil, braquait un pistolet sur M. Gerard Monneir, le directeur de l'agence.

« J'ai alors fait signe à la caissière de leur remettre l'argent » a dit ce dernier, une heure après les faits.

Les deux ont fourré 75,000 Euros dans un sac en plastique et puis ils ont pris la fuite tranquillement à pied en direction de la gare routière. Selon un des clients de l'agence, la scène n'a duré qu'a peine deux minutes.

Passage 4

Le Chômage

Dans le monde entier et surtout au Kenya, il existe une crise grave de manque d'emploi, soi-disant le chômage. Les Jeunes sont les plus vulnérables, particulièrement ceux qui viennent de terminer leurs études à l'école secondaire et cherchent le premier emploi.

Pourquoi y a-t-il le chômage? Il y a plusieurs réponses possibles à cette question. Par exemple, la poussée démographique a provoqué un afflux considérable des jeunes qui cherchent l'emploi. D'ailleurs les jeunes n'avaient pas pu acquérir pendant leur scolarité une réelle formation professionnelle au besoin d'un marché du travail. Parfois, un titulaire d'une licence bien mentionnée ne peut pas trouver de cadre parce qu'on est débutant; donc, il obtient un travail qui ne correspond pas à son diplôme. Quelquefois, l'employeur a le choix de passer un contrat avec quelqu'un expérimenté ou avec un débutant, mais dans la plupart du temps, les employeurs préfèrent l'expérimenté au lieu d'un débutant. Ainsi, Celui qui n'a pas réussi laisse la place à l'autre chômeur. Il est souhaitable que le gouvernement protège les intérêts du Marché du travail par l'assurance d'un bon système d'éducation et par le recrutement d'enseignants bien formés pour faire les jeunes aux école s'adapter à des technologies nouvelles à fin qu'ils obtiennent de bon travail après l'école.
